CONTENTS OF VOLUME 206

No. 1, January, 1954

PAGE

Green, D. E., Mii, S., Mahler, H. R., and Bock, Robert M. Studies on the fatty acid oxidizing system of animal tissues. III. Butyryl coenzyme A dehydrogenase 1

Mahler, H. R. Studies on the fatty acid oxidizing system of animal tissues. IV. The prosthetic group of butyryl coenzyme A dehydrogenase 13

Hawthorne, John N., and Chargaff, Erwin. A study of inositol-containing lipides 27

Irvin, J. Logan, and Irvin, Elinor Moore. The interaction of a 9-aminoacridine derivative with nucleic acids and nucleoproteins 39

Gold, Norman I., and Sturgis, Somers H. The composition of uterine and endometrial nucleic acid 51

Markus, Gabor, and Baumberger, J. Percy. A polarographic study of Evans blue and its combination with plasma proteins 59

Dickman, Sherman R., and Speyer, Joseph F. Factors affecting the activity of mitochondrial and soluble aconitase 67

Mackler, Bruce, Foris, Peter, and Guest, George M. Enzymatic fractionation of adenosine pyrophosphates in human blood 77

Magasanik, Boris, and Brooke, Marcus S. The accumulation of xanthosine by a *guanineless* mutant of *Aerobacter aerogenes* 83

Meister, Alton, Sober, Herbert A., and Peterson, Elbert A. Studies on the coenzyme activation of glutamic-aspartic apotransaminase 89

Thompson, Roy C., and Ballou, John E. Studies of metabolic turnover with tritium as a tracer. III. Comparative studies with tritium and deuterium 101

Lewis, U. J. Acid cleavage of heme proteins 109

Pullman, Maynard E., and Colowick, Sidney P. Preparation of 2- and 6-pyridones of N^1-methylnicotinamide 121

Pullman, Maynard E., San Pietro, Anthony, and Colowick, Sidney P. On the structure of reduced diphosphopyridine nucleotide 129

Mathews, Martin B., and Dorfman, Albert. Effect of heat and pH on hyaluronidase 143

Harper, A. E., Monson, W. J., Benton, D. A., Winje, M. E., and Elvehjem, C. A. Factors other than choline which affect the deposition of liver fat 151

Eichel, Herbert J. Studies on the oxidation of succinic acid by cell-free homogenates of *Tetrahymena pyriformis* S and W 159

Feller, D. D. Metabolism of adipose tissue. I. Incorporation of acetate carbon into lipides by slices of adipose tissue 171

Mandel, H. George, Carló, Pierre-Emmanuel, and Smith, Paul K. The incorporation of 8-azaguanine into nucleic acids of tumor-bearing mice 181

Williams, J. N., Jr. Studies on the relation of pyridine nucleotides and adenosinetriphosphate to choline oxidation 191

Schaffer, Norwood K., May, Stephen C., Jr., and Summerson, William H. Serine phosphoric acid from diisopropylphosphoryl derivative of eel cholinesterase 201

Najjar, Victor A., and Allen, M. B. Formation of nitrogen, nitrous oxide, and nitric oxide by extracts of denitrifying bacteria 209

NAJJAR, VICTOR A., and FISHER, JEAN. Studies on L-glutamic acid decarboxylase from *Escherichia coli* 215
MELVILLE, DONALD B., HORNER, WILLIAM H., and LUBSCHEZ, ROSE. Tissue ergothioneine 221
GIDEZ, L. I., and KARNOVSKY, MANFRED L. The metabolism of C^{14}-glycerol in the intact rat 229
ROTHSTEIN, MORTON, and MILLER, LEON L. The metabolism of L-lysine-6-C^{14}. 243
WOSILAIT, WALTER D., and NASON, ALVIN. Pyridine nucleotide-quinone reductase. I. Purification and properties of the enzyme from pea seeds 255
WOSILAIT, WALTER D., NASON, ALVIN, and TERRELL, ANN J. Pyridine nucleotide-quinone reductase. II. Rôle in electron transport 271
BURTON, ROBERT MAIN, and KAPLAN, NATHAN O. The reaction of pyridine nucleotides with carbonyl compounds 283
WANG, T. P., SHUSTER, LOUIS, and KAPLAN, NATHAN O. The monoester phosphate grouping of coenzyme A 299
WANG, T. P., and KAPLAN, NATHAN O. Kinases for the synthesis of coenzyme A and triphosphopyridine nucleotide 311
KIELLEY, W. WAYNE, and BRADLEY, LOUISE B. Glutathione thiolesterase 327
ABELSON, PHILIP H. Amino acid biosynthesis in *Escherichia coli:* isotopic competition with C^{14}-glucose 335
FISCHER, MARIE A., and GARRITY, GENE C. Protein metabolism in the choline-deficient rat. II. Effects of age and sex on serum proteins 345
POPENOE, EDWIN A., and DU VIGNEAUD, VINCENT. A partial sequence of amino acids in performic acid-oxidized vasopressin 353
SCHLAMOWITZ, MAX. Production of antibodies against dog intestinal phosphatase 361
SCHLAMOWITZ, MAX. Specificity of dog intestinal phosphatase antiserum 369
DEISS, WILLIAM P., and LEON, ARTHUR S. Isolation of a sulfate ester of hyaluronic acid from heart valves 375
GREIF, ROGER L. Extraction and colorimetric measurement of rat testicular hyaluronidase 381
RAVEL, JOANNE M., WOODS, LOUISE, FELSING, BARBARA, and SHIVE, WILLIAM. Some interrelationships of aspartic acid, threonine, and lysine 391
HARDING, W. M., and SHIVE, WILLIAM. Cyclopentaneglycine, an inhibitory analogue of isoleucine 401
EIK-NES, KRISTEN, SCHELLMAN, JOHN A., LUMRY, RUFUS, and SAMUELS, LEO T. The binding of steroids to protein. I. Solubility determinations 411
ROSE, WILLIAM C., HAINES, WILLIAM J., and WARNER, DONALD T. The amino acid requirements of man. V. The rôle of lysine, arginine, and tryptophan 421
HANAHAN, DONALD J., RODBELL, MARTIN, and TURNER, LESLIE D. Enzymatic formation of monopalmitoleyl- and monopalmitoyllecithin (lysolecithins). 431
HUENNEKENS, F. M., HANAHAN, DONALD J., and UZIEL, MAYO. Paper chromatography of lecithins 443
DENTON, A. E., and ELVEHJEM, C. A. Availability of amino acids *in vivo* 449
DENTON, A. E., and ELVEHJEM, C. A. Amino acid concentration in the portal vein after ingestion of amino acid 455
SCHAYER, RICHARD W., SMILEY, ROSA L., and KENNEDY, JEAN. Diamine oxidase and cadaverine metabolism 461
FRANTZ, IVAN D., JR., SCHNEIDER, HENNY S., and HINKELMAN, BEVERLY T. Suppression of hepatic cholesterol synthesis in the rat by cholesterol feeding. 465

FRANTZ, IVAN D., JR., and BUCHER, NANCY L. R. The incorporation of the carboxyl carbon from acetate into cholesterol by rat liver homogenates..... 471
ELDJARN, LORENTZ. The conversion of cystinamine to taurine in rat, rabbit, and man..... 483

No. 2, FEBRUARY, 1954

PAUL, M. F., PAUL, H. E., KOPKO, FRANK, BRYSON, MELVIN J., and HARRINGTON, CATHERINE. Inhibition by furacin of citrate Formation in testis preparations..... 491
CRAMPTON, CHARLES F., LIPSHITZ, RAKOMA, and CHARGAFF, ERWIN. Studies on nucleoproteins. I. Dissociation and reassociation of the deoxyribonucleohistone of calf thymus..... 499
STADTMAN, THRESSA C., CHERKES, AMELIA, and ANFINSEN, CHRISTIAN B. Studies on the microbiological degradation of cholesterol..... 511
WOTIZ, HERBERT H., and LEMON, HENRY M. Studies in steroid metabolism. I. Metabolism of testosterone by human prostatic tissue slices..... 525
NOVELLI, G. DAVID, SCHMETZ, FRANK J., JR., and KAPLAN, NATHAN O. Enzymatic degradation and resynthesis of coenzyme A..... 533
SOWDEN, JOHN C., FRANKEL, SAM, MOORE, BURTON H., and MCCLARY, J. E. Utilization of 1-C^{14}-D-glucose by *Torula utilis* yeast..... 547
ROGERS, CHARLES J., KIMMEL, J. R., HUTCHIN, MAXINE E., and HARPER, HAROLD A. A hydroxyproline method of analysis for a modified gelatin in plasma and urine..... 553
MEISTER, ALTON, FRASER, PHYLLIS E., and TICE, SARAH V. Enzymatic desulfuration of β-mercaptopyruvate to pyruvate..... 561
MEISTER, ALTON. The α-keto analogues of arginine, ornithine, and lysine.... 577
MEISTER, ALTON. Enzymatic transamination reactions involving arginine and ornithine..... 587
UNGAR, FRANK, MILLER, A. M., and DORFMAN, RALPH I. Metabolism of dehydroepiandrosterone and Δ^5-androstene-3β,17β-diol..... 597
BURSTEIN, SHLOMO, and DORFMAN, RALPH I. Hydrocortisone in normal guinea pig urine: isolation and quantitative determination..... 607
CARTER, HERBERT E., CELMER, WALTER D. LANDS, WILLIAM E. M., MUELLER, KATHERINE L., and TOMIZAWA, H. H. Biochemistry of the sphingolipides. VIII. Occurrence of a long chain base in plant phosphatides..... 613
WOOD, W. A., and SCHWERDT, R. F. Carbohydrate oxidation by *Pseudomonas fluorescens*. II. Mechanism of hexose phosphate oxidation..... 625
FLEISHER, GERARD A. Peptidases in human blood. II. The hydrolysis of additional peptides by normal serum..... 637
HAUGAARD, ELLA S., and HAUGAARD, NIELS. The effect of hyperglycemic-glycogenolytic factor on fat metabolism of liver..... 641
HAYAISHI, OSAMU, and KORNBERG, ARTHUR. Metabolism of phospholipides by bacterial enzymes..... 647
ROSEMAN, SAUL, LUDOWIEG, JULIO, MOSES, FRANCES E., and DORFMAN, ALBERT. The biosynthesis of hyaluronic acid by group A streptococcus. II. Origin of the glucuronic acid..... 665
HELE, P. The acetate activating enzyme of beef heart..... 671
KUFF, EDWARD L., and SCHNEIDER, WALTER C. Intracellular distribution of enzymes. XII. Biochemical heterogeneity of mitochondria..... 677

SCHLENK, F., and TILLOTSON, J. A. Formation of 5′-ethylthioadenosine from DL-ethionine in yeast 687
GAFFNEY, GEORGE W., SCHREIER, KURT, DIFERRANTE, NICOLA, and ALTMAN, KURT I. The quantitative determination of hippuric acid 695
SOUPART, P., MOORE, STANFORD, and BIGWOOD, E. J. Amino acid composition of human milk 699
REGISTER, U. D. Effect of vitamin B_{12} on liver and blood non-protein sulfhydryl compounds 705
BERGSTROM, WILLIAM H. The relationship of sodium and potassium to carbonate in bone 711
CLARK, LELAND C., JR., WINKLER, CATHERINE, GOLLAN, FRANK, and FOX, R. PHYLLIS. The extraction and purification of hypertensin (angiotonin) 717
WRIGHT, RITA C., and SCOTT, E. M. Pyruvate and α-ketoglutarate metabolism in thiamine deficiency 725
WEED, LAWRENCE L., and COURTENAY, THOMAS A. A new nucleotide and a new polynucleotide from bacteriophage nucleic acid 735
LARSON, BRUCE L., and SALISBURY, G. W. The proteins of bovine seminal plasma. I. Preliminary and electrophoretic studies 741
SLOANE, N. H., SAMUELS, M., and MAYER, R. L. Factors affecting the hydroxylation of aniline by *Mycobacterium smegmatis* 751
HERNANDEZ, H. H., CHAIKOFF, I. L., DAUBEN, W. G., and ABRAHAM, S. The absorption of C^{14}-labeled epicholesterol in the rat 757
LUCK, J. MURRAY, GRIFFIN, A. CLARK, BOER, G., and WILSON, M. On the endocrine regulation of blood amino acid content 767
CABIB, E., and LELOIR, LUIS F. Guanosine diphosphate mannose 779
RAVEL, JOANNE M., FELSING, BARBARA, and SHIVE, WILLIAM. Glutamic acid inhibition of aspartic acid utilization in threonine biosynthesis 791
LING, CHIUN T., and CHOW, BACON F. The influence of vitamin B_{12} on carbohydrate and lipide metabolism 797
KINGSLEY, GEORGE R., and SCHAFFERT, ROSCOE R. Micro flame photometric determination of sodium, potassium, and calcium in serum with organic solvents 807
HOLMES, WILLIAM L., and PRUSOFF, WILLIAM H. Synthesis and biochemical investigation of thymine-6-carboxylic acid-2-C^{14} 817
TALLAN, HARRIS H., STEIN, WILLIAM H., and MOORE, STANFORD. 3-Methylhistidine, a new amino acid from human urine 825
HOTTA, S., HILL, R., and CHAIKOFF, I. L. Mechanism of increased hepatic cholesterogenesis in diabetes: its relation to carbohydrate utilization 835
FUKUSHIMA, DAVID K., DOBRINER, KONRAD, and GALLAGHER, T. F. Studies with testosterone-*d* in normal men 845
FUKUSHIMA, DAVID K., BRADLOW, H. LEON, DOBRINER, KONRAD, and GALLAGHER, T. F. The fate of testosterone infused intravenously in man 863
SCHAMBYE, PER, WOOD, HARLAND G., and POPJÁK, G. Biological asymmetry of glycerol and formation of asymmetrically labeled glucose 875
SWICK, ROBERT W., and NAKAO, AKIRA. The biological asymmetry of glycerol. 883
KATZ, J., and CHAIKOFF, I. L. A chromatographic-radioautographic method for study of acetate utilization in animal tissues 887
TRUCCO, RAUL E., and CAPUTTO, RANWEL. Neuramin-lactose, a new compound isolated from the mammary gland of rats 901
GLADNER, JULES A., and NEURATH, HANS. Carboxyl terminal groups of proteolytic enzymes. II. Chymotrypsins 911

687 SOLS, ALBERTO, and CRANE, ROBERT K. The inhibition of brain hexokinase by adenosinediphosphate and sulfhydryl reagents 925
695 BERKMAN, S., HENRY, R. J., GOLUB, O. J., and SEGALOVE, M. Tungstic acid precipitation of blood proteins 927
699 PAIGEN, KENNETH. The occurrence of several biochemically distinct types of mitochondria in rat liver 945
705 BERDICK, MURRAY, and MORAWETZ, HERBERT. The interaction of catalase with synthetic polyelectrolytes 959
